

*Each of the four compartments is large enough to accommodate a variety of tablet or capsule combinations*

*Easy to slip it in your purse or pocket*

*Disassemble by pulling the lid from the base*

## INGRID Med Daily Dose

Ingrid Med Daily Dose provides a compact and convenient means to safely store multiple medications for easy access throughout the day.

### Four distinct compartments

It has four distinct compartments, each large enough to accommodate a variety of tablet or capsule combinations. Its sleek design makes it easy to slip it in your purse or pocket.

### Accessible by a turn of the lid

The individual compartments are accessible by a simple turn of the see-through lid (which may be accomplished with an open palm by those with a compromised grip).

And in addition to being numbered, each are distinguishable (for the visually-impaired) by touch.

### Dishwasher-safe

The Daily Dose is dishwasher-safe. Disassemble by turning the lid so that a compartment is only half-open, then pull it from the base. Reassemble by pushing the base and the lid together until there is a clicking sound.
